

CHRISTOPHER MILLS CONSERVATION SERVICES, LLC

## Frost House

*Manufacture and Application of Handmade Finishes/ Conservation of Historic Floors*

**Contact: Stephen Foster, Owner**

The Frost Garrison and House are a cluster of colonial-era buildings on Garrison Drive in Eliot, Maine. The complex includes a c. 1778 house and two garrisons, the oldest dating to 1735. The house is privately owned.

In June 2023, the team was on-site manufacturing and installing handmade finishes in ten rooms. Including shell-slaked traditional limewash and linseed oil paints made on-site to match the first period. Paint analysis provided the specific colors, character and pigments used to recreate the 18th century paints. Other work included the preparation of the woodwork for traditional finishes, conservation of 19th century stencils and floors.
